Professional Summary

Junior Full Stack .NET Developer with a strong foundation in backend development **using C#, ASP.NET Core, MVC, and RESTful APIs**, along with solid frontend experience in **Angular**. Experienced in building scalable web applications, integrating APIs, working with design patterns, and following Agile workflows. Passionate about clean code, learning best practices, and growing as a full stack engineer.

Technical Skills

Backend Development

- C#, ASP.NET Core
- MVC Architecture
- RESTful APIs
- LINQ
- Design Patterns (Repository, Unit of Work, Specification – basic understanding)
- Authentication & Authorization (JWT)
- SQL Server (Basics)
- Redis (Caching – Basic usage)

Frontend Development

- Angular
- TypeScript, JavaScript (ES6+)
- HTML5, CSS3, Bootstrap
- RxJS
- Reactive Forms

Tools & Practices

- Git & GitHub
- Agile / Scrum
- Azure DevOps (Boards, Repos – basic)
- CI/CD basics
- Postman

Projects

Full Stack Developer – “Talabat” E-commerce Platform (In Progress)

- Developing a complete e-commerce web application using Angular for frontend and .NET Core for backend.
- Implemented product catalog, shopping cart, authentication, and user management features.
- Currently integrating payment gateway functionality.
- Applying Agile workflow and version control with Git/GitHub.
- Ensuring responsive design, performance, and security.

Frontend Web Developer – Personal E-commerce Project

- Built a full-featured web application using Angular, TypeScript, HTML5, CSS3, and Bootstrap.
- Integrated RESTful APIs for handling products, users, and orders.
- Applied Reactive Forms, RxJS, and Angular Routing to manage dynamic user interactions.
- Ensured responsive design for desktop and mobile devices.

Education

Bachelor's Degree in Computer and Electronics Engineering
Thebes Academy for Computer and Administrative Sciences – Maadi Branch | 2022
